Careers at Adcorp Computers

School Based Work Experience

Each year Adcorp host a number of work experience places for school students wishing to see the many facets of working in the IT industry. Places are held for students who have selected an IT related subject in their electives. Student in years 10, 11 or 12 are encouraged to apply.

Casual Summer Intern Program

An Internship with Adcorp is a great way to kick start your career in IT. Don't wait till you finish year 12 to start your career. Start it now.

The Internship program is part of our 'School to Work Transition Initiative' and lasts for 13 weeks. In which time interns learn the basic computer and work skills required to start them on their chosen IT career. The training is not 'books and dry study' but plenty of hands on experience. Solving and troubleshooting real-time issues. Interns that complete the 13 weeks, not only earn some decent money along the way, but also are put ahead of the pack for a slot in our casual cadetship program. This mentoring program takes you through to the end of year 12, where you can gain advance standing for one of our full-time traineeships.

Internships are open to year 10 & 11 students studying computer studies at school. Don't get a job get a career. Yours can start now! Ideal candidates for Summer Internships are students which;

- Intend to follow an IT career path.
- Are focused and willing to learn.
- Are taking computer studies at school.
- Achieve above average grades in Maths

Casual Cadetship

A proven track to success for your IT career. Imagine turning 20 years old and holding a professional position where you are highly regarded and everyday is a challenge and 100% enjoyable. Plus earning up to \$50,000 p.a. If this sounds of interest to you, then this is where to start.

Our 'School to Work Transition Initiative' is designed to provide the right skills to future potential IT managers. Following on from our summer internship. This is a casual after school position that continues up until the HSC exams. Students that prove they have the right stuff and can stick with it, are automatically at the front of the queue for any available traineeships once they complete their HSC.

Full Time Traineeship

The training provided is focused to each individual student's goals. Developing their skills in the areas they need to obtain employment in the career path they choose. We offer a wide choice as OpenOffice.net provides a variety of IT related services to business clients throughout the east coast. Some of these services include;

- Business Network Support
- Web Design
- Graphic Design
- Software Development
- Application Training
- Technical Support
